PARTNERSHIP & SPONSORSHIP PROSPECTUS

YALI Nigeria National Summit 2026 | September 24th -26th, 2026 | Daystar Oregun, Ikeja, Lagos

www.summit.yalinetwork.ng

Africa is largely missing from the global AI conversation.

The Global Gap

The Problem: AI is being built largely without African voices. Nigeria risks being consumers, not creators, of AI technology.

The Local Shift

The Shift: This summit changes that. 800-1,000 young Nigerian leaders are stepping up to say: We are not just AI users. We are AI thinkers, builders, and leaders.

A convergence of Nigeria's top emerging innovators.

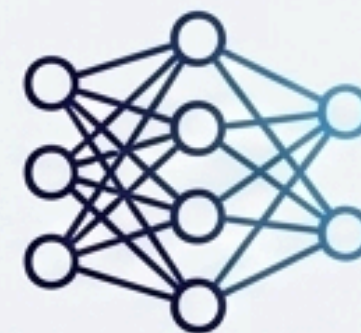

800-1,000 Delegates

Young Nigerian leaders (aged 18-35) converging from all 36 states and the FCT.

2-Day Summit Experience

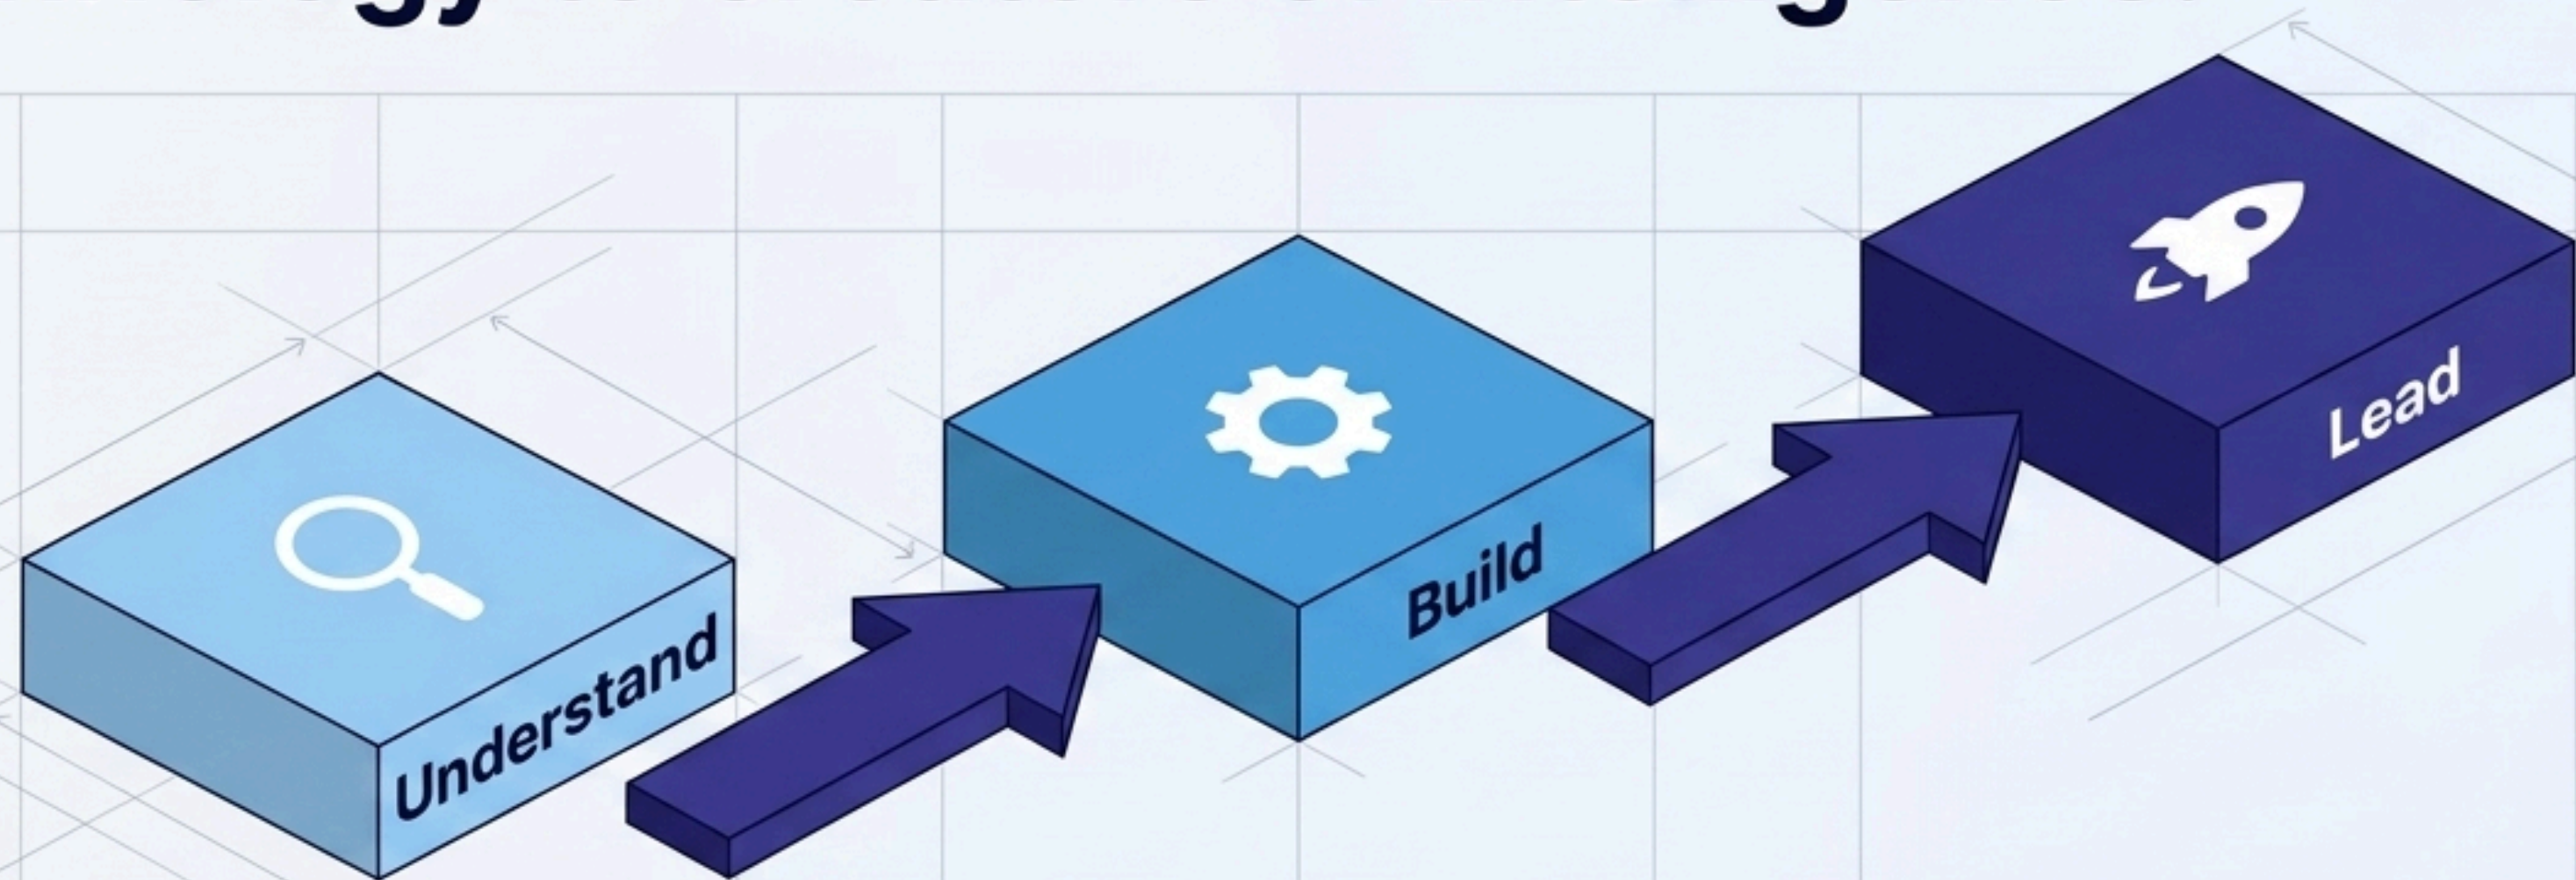

Two intensive days of keynotes, workshops, and a hands-on AI hackathon, closing with a celebration cultural night.

Dedicated AI Agenda

Shaping Nigeria's AI future from within through a purpose-built pedagogical framework.

Moving delegates from consumers of technology to creators of intelligence.

What is AI and how does it touch my life?

Keynotes, panels, and sessions that cut through jargon and make AI real for every delegate.

How do I use AI to solve Nigerian problems?

Hands-on workshops, Pre-Summit Hackathon, and live demos with real tools.

How do I go home and lead others?

Closing sessions, community pledges, and an activated alumni network for sustained action.

Lagos is the natural launchpad for Nigeria's AI revolution.

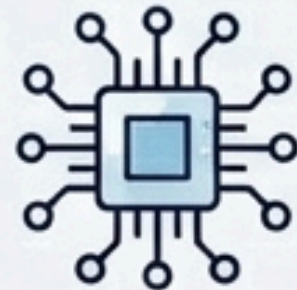

World-Class Infrastructure

International airport, premier venues in Victoria Island, 5-star & budget housing, BRT & ride-hailing networks.

Nigeria's Silicon Valley

"Yabacon Valley" – home to 40%+ of national startup activity.

The AI Hub of Nigeria

Leading AI labs, fintechs, and tech accelerators (Google, Microsoft, Andela, ALX) are based right here.

Culture & Energy

Afrobeats, Nollywood, fashion – the full creative force of Nigerian life.

After successful summits in Akwa Ibom (2024) and Abuja (2025), the natural next chapter is Lagos.

Building on a proven track record.

Two prior national summits give partners real evidence of delivery, reach, and follow-through — not just projections.
